Formulated with the ideal ratio of 15mg of CBD to 2.5 mg of THC, plus our proprietary blend of plant medicines, it offers all the benefits of Therapy plus the pain management capabilities of THC. The functional dose of THC enhances your experience while not slowing you down. Remedy replicates the de-stressing capabilities of 5 long, hot Epsom salt baths, while unravelling the ball of yarn inside your brain. It won't prevent early morning calls from telemarketers, but it will help you have a better day, anyway.

TRUTH 1000mg THC \$30 (MSRP \$59)

Truth's simple, high-potency THC formula allows self-directed treatment for experienced users. Truth blends a high-dose, 33.3mg, of THC with Ceylon true cinnamon to treat chronic pain, muscle tremors and insomnia. Also suitable for those using cannabis since the 70s and who require heroic doses of THC to reach the promised land. Cinnamon, like CBD, is high in antioxidants, has potent anti-inflammatory and antibacterial properties and is a great neuro-protector. For these reasons, the combination of high-dose THC and cinnamon work effectively together to produce a clean, clear high.

THERAPY 500mg CBD \$30 (MSRP \$59)

Therapy's blend of full spectrum CBD and plant medicines is formulated to lessen anxiety and stress while increasing focus and well-being. Our proprietary blend of calm-enhancing plant medicines includes California poppy, which has been used for centuries by Indigenous American healers to help calm anxiety and to relieve both mental and physical tension, and Valerian which reduces fear and stress responses while boosting immunity.
